

## A paper review.

Hand out a review of the paper

H. J. Boehm: Threads cannot be implemented as a library, Proceedings of the ACM SIGPLAN conference on Programming language design and implementation, 261—268, 2005.

<https://doi.org/10.1145/1065010.1065042>.

(also available at <https://shiftright.com/mirrors/www.hpl.hp.com/techreports/2004/HPL-2004-209.pdf>).

a)—c) Focus on sections 4.1, 4.2, 4.3, each giving an argument supporting the claim in the paper's title. For each section, clearly state whether you agree with the argument (YES/NO), explain why. If your answer is NO, suggest an alternative solution to the problem illustrated in the corresponding code fragment.

d) Clearly state (YES/NO) whether you would recommend the paper for publication as it is. Justify your answer.
